Help desk

The experience gained in 15 years of business allows us to provide the **highest skills in terms of assistance**. The service is managed and monitored (on-line ticket) by a dedicated team.

Academy

Able Tech brings a lot of attention to the education related to ARXivar and the topics on **document management, archiving according to legal compliance, workflow management** and **BPM**.

The aim is to **provide** our partners and customers **access to a structured and scheduled training program**, which allows them to get a deep knowledge of the ARXivar system and also a **correct operational methodology** gained through years of experience with the clients.

Research and Development

The department is composed by a **qualified and skilled staff** devoted exclusively to the research and development of the Information and Process Management platform ARXivar.

The activities take place in a **Project Management Certified System** which takes to heart:

- ✗ A steady **improvement**
- ✗ **Agile programming** techniques
- ✗ **Risk and impact analysis (ISO 27001)**
- ✗ **Code-review**
- ✗ **Acceptance Test**

ISO/ IEC 27001 Certification

The **ISO / IEC 27001** standard defines the requirements and rules to set up and manage a management **system for the security of information.**

ARXivar played a central role in obtaining the certification.

ARXivar allows definition and implementation of workflows and at the same time obliges the company to operate according to the legislation in the steps of:

Incident Management, Document Review and Approval, Document Publishing, Discharge User Accounts, Change Management, Non-Compliance and Corrective Action and more

ARXivar

ISO/IEC 9001 Certification

The **ISO/IEC 9001** standard defines requirements and rules to set up and manage a **Quality System**

ARXivar as well as allowing to create, organize and disseminate documented information for quality control, **guides and monitors the progress of the processes**

Through its tasks, ARXivar obliges the companies to operate according to a specific step by step progressive procedure: **Risk management and preventive actions, complaint handling, non-compliance management and corrective actions**

ARXivar

AgID

We are an Italian excellence in the field of digital storage of documents

In October 2016 we obtained the AgID certification needed to be admitted in the list of providers authorized to deliver electronic storage services to the organs and institutions of the PA
